

Leading Towards Leadership

About US

CIM is an educational institute that offers an excellent career support, tutorial and counseling to students, professionals and corporate clients from various fields through human resource development and research activities with larger goals of nation-building.

One of the core areas of professional commitment of CIM is to prepare students to become **Chartered Accountants (CA)** and secure their futures.

What is CA as a profession?

CA is a prestigious and rewarding profession. It is a challenging career that imparts the best of technical skills in finance and management. Chartered Accountants today hold top management positions in public as well as private sectors. Chartered Accountants come through a rigorous system of training and examinations & have wide practical experiences. They are the general practitioner of the financial world, with the expert knowledge and integrity to give high quality advice on any aspect of financial affairs.

Prospects of a CA in global market

- **Very high potential of immediate placement**
- **One of the highest paid professions in the country**
